

CONDUCTING BUSINESS AT VILLAGE FACILITIES

Village of Bloomingdale facilities are currently operating **under Phase 5 of Restore Illinois**, @ <https://www.dph.illinois.gov/covid19/phase-5>

Village facilities are open on a slightly restricted basis. The Village still strongly encourages the public to continue using established “no-contact” methods of conducting Village business such as paying water bills online or using the drive-up drop-box in the front drive of the Village Hall, submitting permit applications and plans online; and emailing business license inquiries, as some examples. A complete list of modified operations and services can be found on the Village website @ <https://www.villageofbloomingdale.org/824/Remote-Service-Options>.

Phase 5 protocol for conducting business at the Village facilities:

- A face mask or covering is requested of individuals entering Village facilities who are not vaccinated.
- Hand sanitizer will be available at service counters.
- All patrons are requested to maintain social distancing by remaining 6 feet away from others. Markers on the floor will designate appropriate areas to wait for assistance.
- The use of Village meeting rooms by outside community groups and associations continues to be subject to Village approval.
- The Village Board and Plan Commission will continue to conduct meetings in-person. The Village will continue to accept questions or comments from the public as part of the agenda for each Village Board and Commission meeting, by phone, by leaving a voicemail at (630) 671-5611, by email scalerap@vil.bloomingdale.il.us, or through the "[Report](#)" portal in the Village website, and need to be submitted by no later than 3:00 p.m. on the applicable meeting date.

The Village reminds everyone to please follow the CDC guidelines on “How to Protect Yourself and Others” by

- Wash your hands often; and avoid touching your eyes, nose, and mouth with unwashed hands.
- Avoid Close Contact (within 6 feet of people who do not live in your home).
- If not vaccinated, cover your mouth and nose with a cloth face cover in public settings and when around people who do not live in your household.
- Cover coughs and sneezes
- Clean and disinfect [frequently touched surfaces](#) daily.
- Monitor Your Health Daily, and stay home and call your doctor if any symptoms are present.
